FCC NTX Update - Change in online competition system

All:

After much discussion, we have decided (here in NTX only) to go back to the TeamCenter/Competition Management System that we had been using for several years. This will allow us to proceed without any uncertainties and potential delays that might occur in getting a new system in place.

Those of you who have participated with us in the past will be familiar with the system and how to use it.

For those of you who are new, the system is pretty easy to use and understand. However, I'm thinking of scheduling a brief Zoom meeting to give you an overview and allow you to ask questions.

The system should be ready for you to start entering data (teams, etc.) in a couple of days. I will notify you then.

DON'T WORRY ABOUT MAINTAINING DATA IN TWO SYSTEMS. This will be the only system you will need to use for this year – with the exception of downloading resources (rubrics, student activities, handbook, etc.) from the Educator Dashboard.

Let me know if you have any questions. And, thank you for your patience and understanding.
